

# INTERNAL JOB ORDER REQUEST

Requested by: Louis Suan.

Date requested: October 8, 2026.

Description of work: the loading dock's rolling door has started jamming halfway through its cycle, forcing staff to force it open manually, which is a safety concern during deliveries. Please inspect the track and motor assembly, lubricate or replace worn parts, and test a full open-close cycle before signing off.

Estimated Cost: PHP 3,750.00
